

# Impact Texas Drivers (ITD) Program

Impact Texas Drivers (ITD) was developed by the Department of Public Safety with the goal of saving lives through awareness and education. The intent of the program is meant to educate young or new drivers in effort to reduce the risk of being involved in automobile crashes, particularly those caused by distracted driving.

ITD is a 2-hour informational video that is a prerequisite to the drive skills examination being administered by the Department or a Third-Party Skills Testing (TPST) authorized school. ITD must be viewed after you have received your DE-964, showing completion of a Teen Driver Education course.

Upon completion of the ITD program you will receive a Certificate of Completion that must be presented prior to administering the drive skills examination. The ITD Certificate of Completion must be dated within 90 days of the administered skills examination.

ITD is available through a Third-Party Skills Testing (TPST) authorized school or the Department's Impact Texas Driver website.

**Attention:** Effective September 1, 2015, if you are taking a teen driver education course, you must complete the ITD requirement before you will be eligible to take the driving skills exam. This requirement to complete ITD includes individuals aged 18-24, who choose to complete a teen driver education course.

**Note:** ITD does not replace the distracted driving module given in the 32 hours of driver education classroom phase. This program has been added to emphasize the ever-increasing dangers of distracted driving.

**Teens:** In order to test with a Third-Party Skills Testing (TPST) authorized school, you must be at least 16 years of age, have held a valid learner license for a minimum of six months, completed Teen Driver Education in its entirety and the Impact Texas Drivers (ITD) course. You must present a completed DE-964 to the Third-Party Skills Testing (TPST) authorized school.
